

Exclusive Layered Tablet

The unique construction of Hillestad's **SUMMIT GOLD**® tablet insures the integrity of the nutrients and provides for the best possible assimilation.

Our laboratory reports that the layered tablet with our special coating protects the sensitive core ingredients. This method of tablet construction requires expensive, specially designed machinery, which presses the two halves of the tablet simultaneously joining them together to make one.

One half of the tablet contains the vitamins in the SeaPlex™ base, the other half contains most of the minerals. The outer coating contains the remainder of the minerals. The tablets are polished with beeswax for ease of swallowing and a beautiful appearance. They are branded for protection and to help prevent look-alikes.

Cut a tablet in two and see this unique construction for yourself.

as part of your daily diet.*

Supplement Facts

Serving Size: 3 Tablets

Amount Per Serving		% Daily Value
Vitamin A (Fish Oil, 40% as Beta Carotene)	15,000 IU	300
Vitamin C (Ascorbic Acid, Rose Hips)	150 mg	250
Vitamin D ₃ (Fish Oil)	500 IU	125
Vitamin E (D-Alpha Tocopherol Succinate)	75 IU	250
Vitamin B ₁ (Molasses Culture, Thiamine Mononitrate)	6 mg	400
Vitamin B ₂ (Molasses Culture, Riboflavin)	7.5 mg	440
Niacin (Molasses Culture, Niacinamide)	51.6 mg	258
Vitamin B ₆ (Molasses Culture, Pyridoxine Hydrochloride)	13.5 mg	675
Folate (Molasses Culture, Folic Acid)	201 mcg	50
Vitamin B ₁₂ (Molasses Culture, Cyanocobalamin)	12 mcg	200
Biotin (D-Biotin, Molasses Culture)	150 mcg	50
Pantothenic Acid (Calcium Pantothenate)	51 mg	510
Calcium (Bone Meal, Oyster Shell, Calcium Carbonate)	501 mg	50
Iron (Ferrous Fumarate)	9 mg	50
Phosphorus (Bone Meal)	120 mg	12
Iodine (Kelp)	75 mcg	50
Magnesium (Magnesium Oxide, Amino Acid Chelate)	200 mg	50
Zinc (Zinc Amino Acid Chelate)	11.3 mg	75
Selenium (Kelp)	25 mcg	35
Copper (Copper Amino Acid Chelate)	1 mg	50
Manganese (Manganese Amino Acid Chelate)	3 mg	150
Chromium (Chromium Amino Acid Chelate)	50 mcg	42
Molybdenum (Molybdenum Amino Acid Chelate)	7.5 mcg	10
Potassium (Potassium Gluconate, Proteininate)	15 mg	<1
LIPOTROPIC FACTORS		
Choline (Choline Bitartrate, Molasses Culture)	75 mcg	†
Inositol (Plant and Lecithin)	75 mg	†

† Daily Value Not Established

Other Ingredients: Cellulose, Citrus Bioflavonoid Complex, Acerola Cherry, Aloe Vera Gel Concentrate, Pancreatin, Rutin, SeaPlex™ (Spirulina, Chlorella, Irish Moss, Dulse, Kelp, Bladderwrack, Sodium Alginate), Lecithin, Marine Lipids, Magnesium Stearate, Gelatin, Food Glaze, Talc, Calcium Sulfate, Titanium Dioxide, Sugar, Gum Arabic, Beeswax.

Why SUMMIT GOLD® . . .

- Complete Formula
- Balanced Formula
- Natural Sources
- Sea Vegetation Base
- Better Assimilated

Superior Natural Sources

The sources for the ingredients of **SUMMIT GOLD®** are extremely important to Hillestad, and we feel they are of prime importance to you, our customer. Scientists have never been able to exactly duplicate nature, so Hillestad uses natural food sources for vitamins and minerals. For example, rose hips and acerola cherries, pure vegetable oils, citrus bioflavonoids, molasses culture, fish oils stabilized to eliminate odor and aftertaste, sterilized calcium, sea vegetation, etc., all in a natural base of SeaPlex™.

Research is an everyday routine at Hillestad Pharmaceuticals, assuring you that the very latest in nutritional findings are incorporated into the **SUMMIT GOLD®** formula. Specialization and quality control are the keys to producing superior products, and our laboratories have specialized in dietary supplements since 1959.

*“First in Quality for
Almost Fifty Years”*

A Base of SeaPlex™ . . .

Hillestad's **SUMMIT GOLD®** has a base of SeaPlex™, which is the trademark of an exclusive blend of sea vegetation containing an abundance of the minerals and trace elements found in sea water.

This special blend of sea plants convert all of the inorganic minerals found in the ocean into organic minerals, which are able to be utilized by the human body.

Some of the sea vegetation is regularly harvested by cutting off the tops of the plants about three to four feet below the water's surface with a special cutting apparatus. They are then brought ashore to be dehydrated by evaporation to preserve all of the mineral content. The dried cuttings are then ground into a fine meal, making an ideal base for **SUMMIT GOLD®**.

The sea vegetation grows back in a matter of weeks, untouched by chemical sprays and enriched by the natural nutrients of the ocean.
